

MAKING MOVES NOW

The **Pay Gap Music & Comedy Series** is making moves around the Twin Cities. These live shows clap back at the gaps in society to influence social change. The given name 'Pay Gap' nods at women earning 82% of what men do, but the series makes room to spread awareness about connecting topics. Be it technology, education, or economy, closing a gap becomes critical to alleviate resource hardship for families, especially women.

Education about a chosen topic is delivered by utilizing hilarious female comics, local musical artists, and fun activities that engage the audience. Your company can support closing a gap related to your industry. Let's put it on stage and showcase how your goals support mending your community.
