

The Pay Gap Music & Comedy Series is making waves in the Twin Cities, tackling societal gaps through live shows that inspire social change. Named after the fact that women earn 82% of what men do, the series also highlights related issues like technology, education, and the economy. Closing these gaps is vital to reducing hardships for families, especially women. With hilarious female comedians, local musicians, and engaging activities, the series educates and entertains. Partner with us to spotlight your industry's role in bridging gaps and strengthening community!
